

FALL PROTECTION SERVICES

Need Reliable, Responsible Fall Protection Services? Call the Best Minds in the Business!

Only Total Safety has the people, programs and processes to equip your organization with the industry's best fall protection services and equipment to keep your workers safe. With Total Safety's fall protection support you can:

- Protect workers from falls that can result in serious injury
- Rent or purchase fall protection products that are both durable and affordable
- Provide workers with comfortable equipment that delivers 100 percent fall protection
- Ensure compliance with industry fall protection standards

Protection at All Heights

Total Safety's fall protection services (elimination/control) are fully customizable to meet your unique needs. Not only do we support your commitment to provide a safe work place for employees, we also help you to meet compliance challenges while staying within operational, budgetary and environmental constraints.

All of our fall protection products meet or exceed:

- Applicable OSHA requirements
- ANSI standards
- CSA standards
- CE standards

Customizable Fall Protection Systems

Total Safety's fall protection systems offer the industry's largest array of personal protection equipment (PPE) from top vendors, all manufactured with the highest quality materials to deliver safety, comfort and ease of use.

- Guardrails
- Stair rails
- Ladder cages
- Fall restraint systems
- Warning lines
- Hooks and carabiners
- Tie-off adaptors
- Tripods
- Permanent and portable horizontal lifelines

The Best Minds in the Business!

TOTAL PROTECTION

Total Safety offers an extensive line of personal protection equipment (PPE) by such manufacturers as:

- DBI-SALA
- MSA
- Miller Fall Protection

Fall Arrest System: A Lifeline to Safety

The ultimate goal of Total Safety's fall protection services is to prevent injury by eliminating the impact of a fall. Our fall arrest systems halt workers in free flight — so if a fall does occur, the chance of impact and serious injury is greatly decreased. Our fall arrest products include:

- Safety nets
- Positioning systems
- Anchorages and anchorage plates
- Shock absorbing and tie-back retractable lanyards
- Self-Retracting Lifelines (SRLs)
- Full body harnesses

Personalized Fall Restraint Training

Total Safety's fall protection professionals can train your team at your location on safe height execution. Our skilled technicians administer personal protective equipment (PPE) workshops designed around your specific requirements, such as:

- Proper lanyard shortening
- Eliminating the possibility of falling from heights by establishing Controlled Access Zones

Expert Equipment Inspection Services

All fall protection devices must be regularly inspected and equipment visually inspected before each and every use. To ensure your fall protection meets safety and compliance regulation requirements, Total Safety's inspection services include comprehensive testing and inspection of all your fall protection gear. Total Safety also trains users on how to visually check equipment for signs of wear and tear before each use. Our inspection services include:

- Harnesses
- Retractable lifelines
- Ladder systems
- Lanyards
- Tripods
- Rope grabs

Targeted Solutions for Any Industry

Our tailored fall protection services protect workers in a wide variety of working environments including:

- Drilling rigs
- Turnarounds
- Confined spaces
- Plants
- Towers
- Scaffolding
- Wind turbines
- Platforms
- Cranes

See what a difference the Best Minds in the Business can make to your safety, operational and financial performance. Our mission is to ensure the safe Wellbeing of Workers Worldwide (W³).
