

# RESPIRATORY SOLUTIONS

## Need Reliable, Responsible Respiratory Solutions? Call the Best Minds in the Business!

Only Total Safety has the people, programs and processes to ensure the industry's most reliable respiratory protection for your operation. We tailor our capabilities as an industry leader in respiratory protection around your unique business and operational dynamics to:

- Optimize your investment in respiratory equipment
- Deliver unsurpassed quality of service and repair
- Provide testing and compliance support you trust
- Eliminate respiratory bottlenecks during turnarounds
- Give you services packaged the way you want them

From refining and petrochemical facilities to oil and gas drilling, Total Safety provides top quality respiratory equipment and unmatched service to keep your people safe and your operations profitable.

- Hydrogen sulfide (H<sub>2</sub>S) packages
- Total turnaround safety services and consultation support
- In-Plant Service Centers (IPSCs)
- Respiratory equipment rentals, cleaning, repair and maintenance
- Respiratory fit testing - Pulmonary Function Test (PFT)
- Respiratory protection systems
- Safety attendant services

### Optimize Equipment Investments

Total Safety provides the best possible returns on respiratory equipment utilization, regardless of your facility's business or operating strategy.

- Asset management of customer-owned equipment
- Long- and short-term equipment rental
- New equipment sales from top industry providers, such as MSA, SCOTT Health and Safety, 3M, Air Systems, North, Sperian and Dräger

With the best minds in the business handling your respiratory needs, you have a single-source partner for all Grade D breathing air demands, including:

- Single cylinders
- Cascade systems
- Tube trailers
- Patented High Pressure Breathing Air Loop System (HPLS)
- Breathing air compressors

Total Safety's exclusive, patented High Pressure Breathing Air Loop System (HPLS), as well as our expertise in the design of custom air configurations, helps you create the ideal respiratory environment for efficient, effective operations.

# TOTAL REPRESENTATION

Total Safety is an authorized distributor of respiratory protection equipment from suppliers such as:

- MSA
- SCOTT
- 3M
- North
- Air Systems
- Sperian
- Dräger

## Quality Equipment Service and Repair

At Total Safety, we meticulously service every product we carry and we have the industry expertise to facilitate the repair or maintenance of all major respiratory protection products. We offer:

- Trained and certified technicians
- 24/7 service
- Processes that maximize productivity and minimize stress
- Service agreements built around your needs

## Expert Testing and Compliance

We ensure that your equipment stays in proper working order, both for optimum performance when you need it and to meet regulatory compliance standards.

- Monthly or annual compliance inspections
- Annual flow testing of equipment
- Hydrostatic testing of cylinders
- Fit testing
- Regulatory consultation and counsel

## Convenient On-Site Service

Total Safety's expertise makes respiratory protection solutions fast and easy. Our In-Plant Service Centers (IPSCs) make equipment sales, service, maintenance, upgrade, documentation and management more economical by stationing our assets at your location, where you need them most.

## H<sub>2</sub>S Custom Respiratory Protection Solutions

At Total Safety, we're experts at delivering custom respiratory solutions packaged for your operating demands, such as our H<sub>2</sub>S service for oil and gas drilling environments, which includes:

- Site-specific contingency plans
- Respiratory (SCBA) equipment rentals and sales
- Gas detection and alarm systems, rentals and sales
- Respiratory Pulmonary Function Test (PFT) and fit testing
- Expert technicians
- Grade D breathing air
