

# SERVICES LINE CARD

## VENDING

Our state-of-the-art vending programs provide quick and convenient access to essential personal protective equipment, tooling, and consumables, ensuring that workers can replenish without disrupting their workflow. This accessibility helps to boost productivity and enhance operational efficiency through safety compliance. Additionally, our vending lockers can be utilized to securely store items requiring servicing; once removed, they undergo maintenance before being returned to the lockers for immediate use.

### Features:

- Radios
- Consumable Vending
- Safety Equipment Check-in/Check-out
- Calibrated Tooling
- Safety Equipment Inspections/Compliance

## VENDOR MANAGED INVENTORY

We tailor our on-site vendor-managed inventory programs to suit the needs of our customers, ensuring they never experience inventory shortages. With the use of barcoded labels and RFID systems, the demand-driven replenishment min/max system is consistently monitored by our well-trained team to maintain inventory levels resulting in more efficient inventory management, reduced stockouts and improved supply chain visibility.

### Features:

- Reduced Stockouts
- Demand Forecasting
- Collaborative Planning
- Automatic Replenishment
- Flexibility
- Reserve Inventory
- Supply Chain Visibility

## PROTECTIVE EQUIPMENT TESTING (PET) LAB

Our Protective Equipment Testing Labs, certified by NAIL, are committed to ensuring the safety and compliance of our customers through comprehensive low and high voltage testing. Whether it's testing new products or recertifying existing electrical protection, our extensive inventory and state-of-the-art equipment stand prepared to fulfill our customers' requirements and uphold regulatory standards.

### Features:

- Gloves
- Sleeves
- Boots
- Jumpers
- Blankets
- Matting
- Hot Sticks
- Hoods
- Line Hose
- Grounds

## GARMENT CUSTOMIZATION

Our in-house garment shops empower customers to customize their clothing to fit their needs. With quick turnaround times, a straightforward setup process free from hidden fees, and a diverse inventory, we guarantee a smooth and convenient experience for our clientele to obtain the garment they desire precisely when they need it.

### Features:

- Direct Embroidery
- Patches
- Heat Transfers
- Reflective Striping
- Alterations
- On-site Fittings
- Hemming
- Alterations

## IN-PLANT SERVICE CENTERS

On-site expert safety technicians, equipment, maintenance and inspection services are bundled to help manage your unique project needs. Our full-time, trained technicians can be on site day or night, to provide integrated safety services that support your specific site requirements, help improve efficiency, maintain compliance, and minimizes costs.

### Features:

- Rentals
- Repairs
- Maintenance
- Fresh air training
- Monitor calibration
- Fit testing
- Flow testing
- Mask washing
- Grade D Air Cylinder Filling
- Safety Equipment Inspections

## TOOL ROOM MANAGEMENT

On-site toolroom attendants are available to ensure that the right tools are available when needed, helping to maintain productivity and efficiency in the workplace. Our dedicated toolroom attendants streamline operations by expertly managing inventory, issuing tools, and maintaining meticulous records. From inventory management to tool maintenance and safety enforcement, our team ensures a seamless workflow.

### Features:

- Key Cutting
- Asset allocations
- Tool calibration
- Theft Prevention
- Inspections
- Minor Tool Repairs
- Tool Maintenance
- Asset Management
- Inventory Management

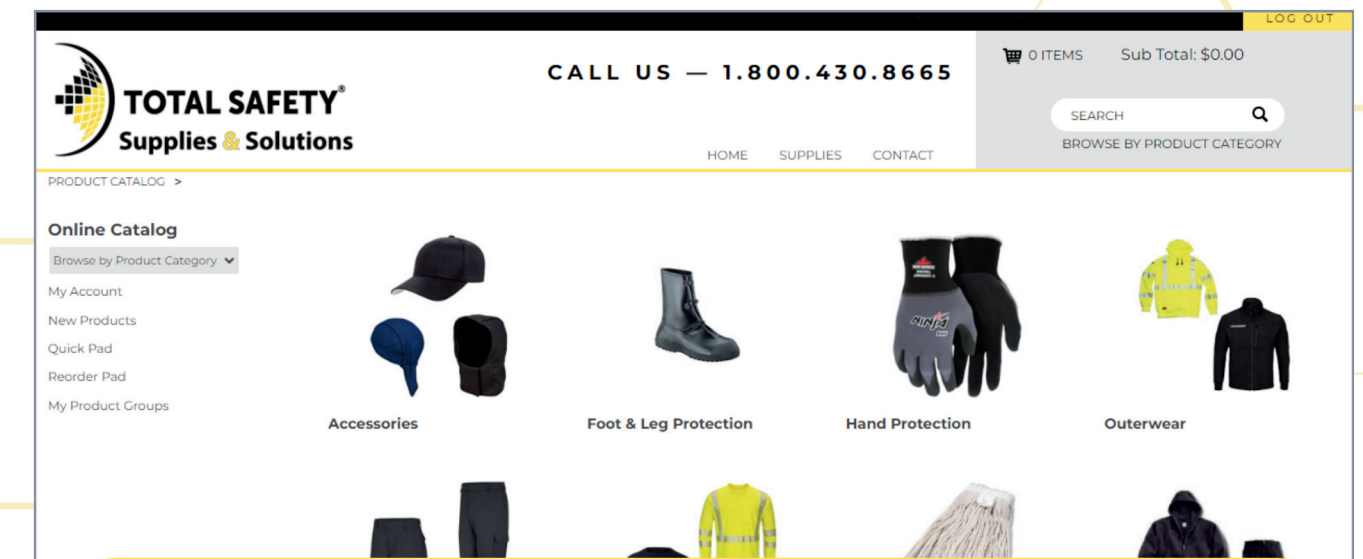

## TURNAROUND TRAILERS

Our turnaround trailers are equipped with a range of essential consumables, safety equipment, and supplies tailored to your specific job requirement. Strategically deploying these trailers ensures immediate access to the necessary resources, minimizing downtime and increasing productivity. This approach also enhances efficiency by eliminating the need for workers to travel back and forth to centralized storage facilities, saving both time and logistical costs. Additionally, consumable trailers can be regularly restocked and customized based on evolving project needs, providing a flexible and convenient solution for on-demand resource management.

### Features:

- Customized Inventory
- Readily accessible
- Conveniently located
- Improved Safety
- Reduced downtime
- Flexibility

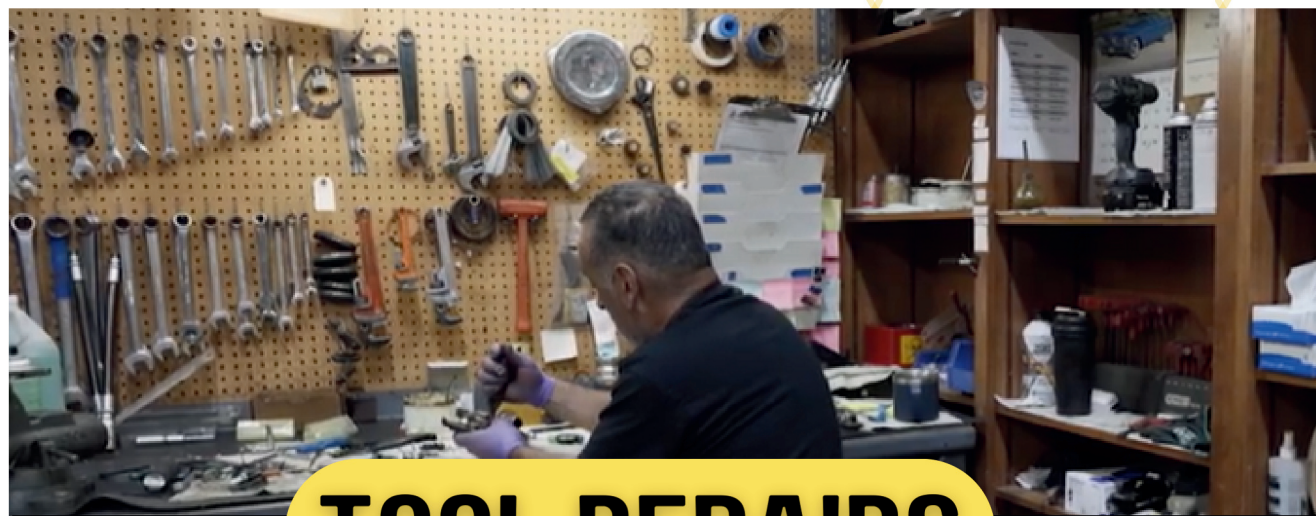

## E-PROCUREMENT CATALOG

Our personalized e-catalogs exclusively feature items approved by each individual customer, ensuring a browsing experience tailored to their specific preferences and needs. Maintaining solely approved items in the catalog not only ensures safety compliance but also minimizes unnecessary expenditure on unauthorized items. Our agile system allows for swift additions, removals, or modifications to the catalog, ensuring real-time responsiveness to evolving needs and preferences.

### Features:

- Personalization
- Cost Control
- Safety Compliance
- Real-time Updates
- B2B Integration
- Spend Visibility

## TOOL REPAIRS

Staffed with skilled technicians and equipped with state-of-the-art machinery, our tool repair department specializes in diagnosing and repairing a wide range of tools and equipment. From routine maintenance to intricate repairs, every task is approached with meticulous attention to detail and a commitment to quality craftsmanship.

### Features:

- Hand tools
- Power tools
- Hydraulic tools
- Pneumatic tools
- Lockout cable assembly
- Hoist certifications
- Hose assembly

## GROUND'S SHOP

At our facility, we specialize in providing top-of-the-line grounds and jumper assemblies tailored specifically for line work needs. We excel in building and testing these essential assemblies with precision and care, ensuring they meet stringent safety standards and contribute to the smooth operation of electrical systems. Whether you require customized grounding solutions or reliable jumper assemblies, our shop is dedicated to delivering products that prioritize safety, reliability, and performance in line work applications.

### Features:

- Grounds assembly
- Jumper assembly
- Testing
